

Born in China and raised in Philadelphia, Dr. Lam came to Naples after earning his doctorate at Temple University's School of Podiatric Medicine in Philadelphia, PA.

Dr. Kevin Lam

Family Foot & Leg Center, P.A.

“I feel walking is a gift that is only truly appreciated when lost or impaired.”

Some doctors are a step above the rest! Dr. Kevin Lam of the Family Foot & Leg Center, P.A. has established himself as a premier Podiatrist in Naples whose total expertise focuses on the foot, ankle, leg and related injuries and ailments. As a specialist, Dr. Lam gets patients back on their feet and keeps them there.

“I have a simple philosophy,” says Dr. Lam. “I feel walking is a gift that is only truly appreciated when lost or impaired.” At the Family Foot & Leg Center, Dr. Lam provides every patient with personalized attention and the care for detail that makes for successful results. As a national academic speaker for the Podiatric profession, Dr. Lam is recognized a scholar in his field.

“The Family Foot & Leg Center offers many treatments exclusive to our practice,” says Dr. Lam. “With Cryosurgery and

Shockwave Therapy, I am able to offer pain relief to patients who have suffered for years.” Cryosurgery is a highly specialized procedure that uses extremely low temperatures to destroy pathological tissues, thereby eliminating pain when medication, orthotics, physical and injection therapy have failed. Shockwave Therapy offers pain relief to people who have endured previous surgeries, yet pain persists. “We offer a non-invasive and non-surgical option for persistent and debilitating heel pain,” says Dr. Lam. This is the same kind of treatment professional sports teams’ use on their players. What’s more, Dr. Lam is the area’s only Certified Third Generation Ankle Implant Surgeon.
